Introducing
SAFE-GUARD™ TREATMENT SHIELD™
PROTECTING CLIENT & SERVICE PROVIDER

Introducing SAFE-GUARD™ TREATMENT SHIELD

Protect your clients and your service providers during facials and face-up body treatments with the Living Earth Crafts® Safe-Guard™ Treatment Shield. Practical and safe, a curved and tapered acrylic plexiglass shield fits easily into your treatment table's headrest outlets, creating a crystal clear, clean, sanitary protective barrier between technician and guest. Tapered and curved design for better client access. Easy to disinfect. Fits most industry standard treatment tables. Stores compactly.

Protective Barrier during Facials and other Body Treatments

Creates a safe, protective barrier between client and service provider.

Easy Access Tapered Design

Curved and tapered to allow both ease of access and excellent visibility in facials and other supine treatments while protecting both client and technician. Patent pending design.

Disinfectable, Durable and Clear

3/8" clear, laser-contoured, curved plexiglass. Disinfectable and durable.

Fits all Standard Headrest Outlets

Uses industry standard 3/4" dowels, 8" on center apart.

Stores Easily

Stores easily with removable hardwood adaptor and compact 12"x24" Plexiglass shield.
